

Pebbles

Pebbles can be used between stone tiles in the garden, like on the left and below picture. The steps are built up in concrete and the stone tiles put on the top...

On the left picture the pebbles are Bali stone and the size of the stone is available in a wide range of sizes.

On the right picture we have a sample of a big and flat black stone. There is available many different pebbles, for every taste...

Pebbles can too be used in flower pots or flower beds. The purpose for this is not just for looking nice but to keep the humidity and avoid the earth to splash away while watering or when raining...

Samples different pebbles
